

Test Cases: Training Portal – Publicly Available Content for Clients

CKYCRR 2.0 System

Document Version: 1.0

Reference Document: SRS_CERSAI_CKYCRR2.0_Training_Portal_V1.4

Section Reference: 4. Training Portal – Publicly available content for clients

Date: February 10, 2026

Test Case Summary

Module	Training Portal – Publicly Available Content
Sub-Module	End Customer Section
Total Test Cases	65
Scope	FAQs, About CKYC, Instructional/Awareness Videos

Test Cases

Module: Training Portal – Publicly Available Content for Clients

Sub-Module: Homepage Navigation & Access

Test Case ID	TC_PAC_001
Description	Verify user can access CKYCRR 2.0 website homepage successfully
Pre-Condition	1. User has internet connectivity 2. User has a web browser installed
Design Steps	1. Open web browser 2. Enter URL: https://www.ckycindia.in 3. Press Enter
Expected Result	CKYCRR 2.0 homepage should load successfully with all navigation menus visible including "FAQs" menu
Severity	Critical
Priority	High

Test Case ID	TC_PAC_002
Description	Verify "FAQs" menu is visible on homepage navigation bar
Pre-Condition	User has accessed https://www.ckycindia.in successfully
Design Steps	1. Load CKYCRR 2.0 homepage 2. Locate the navigation bar 3. Check for "FAQs" menu option
Expected Result	"FAQs" menu should be clearly visible in the homepage navigation bar
Severity	Critical
Priority	High

Test Case ID	TC_PAC_003
Description	Verify "FAQs" menu is clickable
Pre-Condition	User is on CKYCRR 2.0 homepage
Design Steps	1. Navigate to CKYCRR 2.0 homepage 2. Hover over "FAQs" menu 3. Click on "FAQs" menu
Expected Result	"FAQs" menu should be clickable and cursor should change to pointer on hover
Severity	Critical
Priority	High

Test Case ID	TC_PAC_004
Description	Verify user is redirected to FAQs page on clicking FAQs menu
Pre-Condition	User is on CKYCRR 2.0 homepage with "FAQs" menu visible
Design Steps	1. Access CKYCRR 2.0 homepage 2. Click on "FAQs" menu from navigation bar 3. Observe the page redirection
Expected Result	User should be redirected to FAQs page displaying all FAQ-related content
Severity	Critical
Priority	High

Test Case ID	TC_PAC_005
Description	Verify page loading time for FAQs section is within acceptable limits
Pre-Condition	User has stable internet connection
Design Steps	1. Open CKYCRR 2.0 homepage 2. Click on "FAQs" menu 3. Measure page load time
Expected Result	FAQs page should load within 3-5 seconds under normal network conditions
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_006
Description	Verify FAQs page accessibility without login
Pre-Condition	User is not logged in to the system
Design Steps	1. Access https://www.ckycindia.in without logging in 2. Click on "FAQs" menu 3. Verify page access
Expected Result	FAQs page should be accessible to any user/citizen without requiring login
Severity	Critical
Priority	High

Sub-Module: FAQs Content Display

Test Case ID	TC_PAC_007
Description	Verify FAQs section displays list of frequently asked questions
Pre-Condition	1. User has accessed FAQs page 2. FAQs are published via CMS
Design Steps	1. Navigate to FAQs page 2. Scroll through the page 3. Verify FAQs are displayed
Expected Result	A list of frequently asked questions with their answers should be displayed
Severity	Critical
Priority	High

Test Case ID	TC_PAC_008
Description	Verify each FAQ has a question and corresponding answer
Pre-Condition	FAQs page is loaded successfully
Design Steps	1. Open FAQs page 2. Select any FAQ 3. Verify question and answer are present
Expected Result	Each FAQ entry should contain both question and answer
Severity	Critical
Priority	High

Test Case ID	TC_PAC_009
Description	Verify FAQ answers are displayed in readable format
Pre-Condition	FAQs are loaded on the page
Design Steps	1. Navigate to FAQs section 2. Expand/view any FAQ answer 3. Check readability and formatting
Expected Result	FAQ answers should be properly formatted, readable with appropriate font size and spacing
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_010
Description	Verify FAQs are categorized or organized logically
Pre-Condition	Multiple FAQs are available on the page
Design Steps	1. Access FAQs page 2. Review the arrangement of FAQs 3. Check if FAQs are grouped by category/topic
Expected Result	FAQs should be organized in a logical manner (by category, topic, or frequency)
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_011
Description	Verify search functionality is available for FAQs (if applicable)
Pre-Condition	FAQs page is loaded
Design Steps	1. Navigate to FAQs page 2. Look for search box/functionality 3. Enter search keyword 4. Verify search results
Expected Result	If search functionality exists, it should filter FAQs based on keywords entered
Severity	Low
Priority	Low

Test Case ID	TC_PAC_012
Description	Verify expandable/collapsible FAQ functionality (if implemented)
Pre-Condition	FAQs page is loaded with accordion-style FAQs
Design Steps	1. Open FAQs page 2. Click on a question to expand 3. Click again to collapse 4. Repeat for multiple FAQs
Expected Result	FAQs should expand to show answers when clicked and collapse when clicked again
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_013
Description	Verify no FAQ content is missing or displays error
Pre-Condition	CMS has published FAQ content
Design Steps	1. Navigate to FAQs section 2. Verify all FAQs load without errors 3. Check for broken links or missing content
Expected Result	All FAQ content should display properly without errors or missing data
Severity	High
Priority	High

Sub-Module: About CKYC (About Us Section)

Test Case ID	TC_PAC_014
Description	Verify "About Us" or "About CKYC" section is accessible from homepage
Pre-Condition	User is on CKYCRR 2.0 homepage
Design Steps	1. Access homepage 2. Look for "About Us" or "About CKYC" section/link

Test Case ID	TC_PAC_014
	3. Click on the link
Expected Result	"About Us" or "About CKYC" section should be accessible from homepage
Severity	Critical
Priority	High

Test Case ID	TC_PAC_015
Description	Verify About CKYC section provides detailed explanation of CKYC
Pre-Condition	User has accessed About CKYC section
Design Steps	1. Navigate to About CKYC section 2. Read the content 3. Verify completeness of information
Expected Result	Section should contain detailed explanation about what CKYC is, its purpose, and user involvement
Severity	Critical
Priority	High

Test Case ID	TC_PAC_016
Description	Verify About CKYC section explains the purpose of CKYC
Pre-Condition	About CKYC page is loaded
Design Steps	1. Open About CKYC section 2. Review content for purpose statement 3. Verify clarity of purpose explanation
Expected Result	The purpose of CKYC should be clearly explained in simple, understandable language
Severity	High
Priority	High

Test Case ID	TC_PAC_017
Description	Verify About CKYC section describes different user roles
Pre-Condition	About CKYC content is published via CMS
Design Steps	1. Navigate to About CKYC section 2. Look for information about different users (RE users, CERSAI users, end customers) 3. Verify role descriptions
Expected Result	Section should describe how different users are involved in the CKYC process
Severity	High
Priority	High

Test Case ID	TC_PAC_018
Description	Verify About CKYC content is up-to-date and accurate
Pre-Condition	Latest content has been published via CMS
Design Steps	1. Access About CKYC section 2. Compare content with current CKYC regulations 3. Verify accuracy
Expected Result	Content should reflect current, accurate information about CKYC
Severity	High
Priority	High

Test Case ID	TC_PAC_019
Description	Verify About CKYC section is accessible without login
Pre-Condition	User is not logged in
Design Steps	1. Access homepage without logging in 2. Click on About CKYC section 3. Verify access
Expected Result	About CKYC section should be accessible to any user/citizen without login
Severity	Critical
Priority	High

Sub-Module: Instructional/Awareness Videos

Test Case ID	TC_PAC_020
Description	Verify instructional/awareness videos section is available
Pre-Condition	User has accessed the public training portal section
Design Steps	1. Navigate to training/help section 2. Look for instructional/awareness videos 3. Verify section exists
Expected Result	A dedicated section for instructional/awareness videos should be available
Severity	Critical
Priority	High

Test Case ID	TC_PAC_021
Description	Verify videos are displayed with thumbnails
Pre-Condition	Instructional videos have been published via CMS
Design Steps	1. Access videos section 2. Verify each video has a thumbnail image 3. Check thumbnail clarity
Expected Result	Each video should have a clear, representative thumbnail image
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_022
Description	Verify video titles are descriptive and meaningful
Pre-Condition	Videos are loaded on the page
Design Steps	1. Navigate to videos section 2. Read video titles 3. Verify titles describe video content
Expected Result	Each video should have a descriptive title that clearly indicates its content/purpose
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_023
Description	Verify videos can be played successfully
Pre-Condition	User has accessed videos section
Design Steps	1. Navigate to videos section 2. Click play button on any video 3. Observe video playback
Expected Result	Video should start playing smoothly without errors
Severity	Critical
Priority	High

Test Case ID	TC_PAC_024
Description	Verify video player controls are functional (play, pause, volume)
Pre-Condition	Video is loaded and playing
Design Steps	1. Start playing a video 2. Test pause button 3. Test volume control 4. Test seek/scrub functionality
Expected Result	All video player controls (play, pause, volume, seek) should work properly
Severity	High
Priority	High

Test Case ID	TC_PAC_025
Description	Verify video quality is adequate for instructional purposes
Pre-Condition	Video is playing
Design Steps	1. Play any instructional video 2. Observe video quality 3. Check if content is clearly visible
Expected Result	Video quality should be clear enough to understand instructions (minimum 720p recommended)
Severity	High
Priority	High

Test Case ID	TC_PAC_026
Description	Verify audio quality in instructional videos
Pre-Condition	Video with audio is playing
Design Steps	1. Play video with audio narration 2. Listen to audio quality 3. Verify clarity and audibility
Expected Result	Audio should be clear, audible, and free from distortion or background noise
Severity	High
Priority	High

Test Case ID	TC_PAC_027
Description	Verify videos are categorized by topics/modules
Pre-Condition	Multiple instructional videos are available
Design Steps	1. Access videos section 2. Review video organization 3. Verify categorization
Expected Result	Videos should be organized by relevant categories/topics for easy navigation
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_028
Description	Verify video duration is displayed
Pre-Condition	Videos are loaded in the section
Design Steps	1. Navigate to videos section 2. Check each video listing 3. Verify duration display
Expected Result	Each video should display its duration (e.g., "5:30" or "5 min 30 sec")
Severity	Low
Priority	Low

Test Case ID	TC_PAC_029
Description	Verify videos can be viewed in full-screen mode
Pre-Condition	Video is playing
Design Steps	1. Start playing a video 2. Click full-screen button 3. Verify full-screen mode 4. Exit full-screen mode
Expected Result	Video should expand to full-screen mode and exit properly when requested
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_030
Description	Verify videos have captions/subtitles option (accessibility)
Pre-Condition	Video is playing
Design Steps	1. Play a video 2. Look for caption/subtitle option 3. Enable captions if available 4. Verify caption display
Expected Result	Videos should ideally have captions/subtitles for accessibility (if implemented)
Severity	Low
Priority	Low

Test Case ID	TC_PAC_031
Description	Verify multiple videos can be accessed sequentially
Pre-Condition	Multiple videos are available
Design Steps	1. Play first video completely 2. Navigate to next video 3. Play next video 4. Repeat for multiple videos
Expected Result	User should be able to watch multiple videos one after another without issues
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_032
Description	Verify video streaming works on slow internet connection
Pre-Condition	User has slow/limited internet connectivity
Design Steps	1. Simulate slow internet connection 2. Attempt to play video 3. Observe buffering and playback
Expected Result	Video should buffer appropriately and play with minimal interruptions or provide adaptive quality
Severity	Medium
Priority	Medium

Sub-Module: Instructional Guides/Documents

Test Case ID	TC_PAC_033
Description	Verify step-by-step guides/documents are available
Pre-Condition	Guides have been published via CMS
Design Steps	1. Navigate to help/training section 2. Look for downloadable guides

Test Case ID	TC_PAC_033
	3. Verify availability
Expected Result	Step-by-step instructional documents/guides should be available for download
Severity	High
Priority	High

Test Case ID	TC_PAC_034
Description	Verify guides are downloadable
Pre-Condition	Instructional guides are listed
Design Steps	1. Navigate to guides section 2. Click download button/link for a guide 3. Verify download initiates
Expected Result	User should be able to download guides in common formats (PDF, DOC)
Severity	High
Priority	High

Test Case ID	TC_PAC_035
Description	Verify downloaded guides are readable and complete
Pre-Condition	Guide has been downloaded successfully
Design Steps	1. Download any guide 2. Open the downloaded file 3. Verify content is complete and readable
Expected Result	Downloaded document should open properly with complete, readable content
Severity	High
Priority	High

Test Case ID	TC_PAC_036
Description	Verify guides contain step-by-step instructions
Pre-Condition	User has accessed a guide
Design Steps	1. Download and open a guide 2. Review content structure 3. Verify step-by-step format
Expected Result	Guides should contain clear, numbered step-by-step instructions
Severity	High
Priority	High

Test Case ID	TC_PAC_037
Description	Verify guides include screenshots or visual aids
Pre-Condition	Guide document is open
Design Steps	1. Open any instructional guide 2. Look for screenshots or images 3. Verify images support instructions
Expected Result	Guides should include relevant screenshots/images to support text instructions
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_038
Description	Verify guides cover portal usage and task completion
Pre-Condition	Multiple guides are available
Design Steps	1. Review available guides 2. Check coverage of topics 3. Verify portal usage and tasks are explained
Expected Result	Guides should cover how to use the portal and complete specific tasks
Severity	High
Priority	High

Test Case ID	TC_PAC_039
Description	Verify guides explain user roles and responsibilities
Pre-Condition	Guides are accessible
Design Steps	1. Download relevant guides 2. Search for role and responsibility information 3. Verify completeness
Expected Result	Guides should explain different user roles and their responsibilities in CKYC process
Severity	High
Priority	High

Test Case ID	TC_PAC_040
Description	Verify file size of guides is reasonable for download
Pre-Condition	Guides are available for download
Design Steps	1. Check file size of guides before download 2. Verify file sizes 3. Download and check actual size
Expected Result	Guide file sizes should be optimized (ideally under 10MB each) for easy download
Severity	Low
Priority	Low

Sub-Module: Content Management System (CMS) Integration

Test Case ID	TC_PAC_041
Description	Verify content is managed through CMS
Pre-Condition	Administrator has CMS access
Design Steps	1. Access CMS as administrator 2. Verify FAQs, About Us, Videos sections in CMS 3. Check content management capabilities
Expected Result	All public content (FAQs, About, Videos, Guides) should be manageable via CMS
Severity	Critical
Priority	High

Test Case ID	TC_PAC_042
Description	Verify authorized administrators can add new content via CMS
Pre-Condition	Administrator has appropriate permissions
Design Steps	1. Login to CMS as authorized admin 2. Navigate to content section 3. Attempt to add new FAQ/video/guide 4. Publish content
Expected Result	Authorized administrators should be able to add new content successfully
Severity	Critical
Priority	High

Test Case ID	TC_PAC_043
Description	Verify administrators can update existing content via CMS
Pre-Condition	Existing content is available in CMS
Design Steps	1. Login to CMS 2. Select existing content item 3. Edit content 4. Update and publish
Expected Result	Administrators should be able to update existing content and changes should reflect on portal
Severity	Critical
Priority	High

Test Case ID	TC_PAC_044
Description	Verify CMS maintains version control for content
Pre-Condition	Content has been updated multiple times
Design Steps	1. Access CMS 2. View any content item 3. Check version history 4. Verify version details
Expected Result	CMS should maintain version control showing history of changes with timestamps and user info
Severity	High
Priority	High

Test Case ID	TC_PAC_045
Description	Verify only approved content is visible to end users
Pre-Condition	Some content is in draft and some is approved
Design Steps	1. Create draft content in CMS (do not approve) 2. Access portal as end user 3. Verify draft content is not visible 4. Approve content and verify visibility
Expected Result	Only approved content should be visible to end users; draft content should remain hidden
Severity	Critical
Priority	High

Test Case ID	TC_PAC_046
Description	Verify CMS allows scheduling of content publication
Pre-Condition	CMS has scheduling functionality
Design Steps	1. Login to CMS 2. Create new content 3. Schedule publication for future date/time 4. Verify content appears at scheduled time
Expected Result	If scheduling is supported, content should be published automatically at the scheduled time
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_047
Description	Verify content approval workflow in CMS (if applicable)
Pre-Condition	Approval workflow is configured
Design Steps	1. Create content as author 2. Submit for approval 3. Approve as reviewer 4. Verify content publication
Expected Result	Content should go through approval workflow before becoming visible to end users
Severity	High
Priority	High

Test Case ID	TC_PAC_048
Description	Verify CMS audit trail for content changes
Pre-Condition	Content has been added/updated
Design Steps	1. Access CMS audit logs 2. Review changes made to content 3. Verify user, timestamp, and change details
Expected Result	CMS should maintain audit trail showing who made changes, when, and what was changed
Severity	High
Priority	High

Sub-Module: Cross-browser and Device Compatibility

Test Case ID	TC_PAC_049
Description	Verify publicly available content displays correctly on Chrome browser
Pre-Condition	Google Chrome browser is installed
Design Steps	1. Open Chrome browser 2. Access https://www.ckycindia.in 3. Navigate through FAQs, About, Videos sections 4. Verify display and functionality
Expected Result	All content should display and function properly in Chrome browser
Severity	High
Priority	High

Test Case ID	TC_PAC_050
Description	Verify publicly available content displays correctly on Firefox browser
Pre-Condition	Mozilla Firefox browser is installed
Design Steps	1. Open Firefox browser 2. Access website 3. Navigate sections 4. Verify display and functionality
Expected Result	All content should display and function properly in Firefox browser
Severity	High
Priority	High

Test Case ID	TC_PAC_051
Description	Verify publicly available content displays correctly on Safari browser
Pre-Condition	Safari browser is available (macOS/iOS)
Design Steps	1. Open Safari browser 2. Access website 3. Navigate sections 4. Verify display and functionality
Expected Result	All content should display and function properly in Safari browser
Severity	High
Priority	High

Test Case ID	TC_PAC_052
Description	Verify publicly available content displays correctly on Edge browser
Pre-Condition	Microsoft Edge browser is installed
Design Steps	1. Open Edge browser 2. Access website 3. Navigate sections 4. Verify display and functionality
Expected Result	All content should display and function properly in Edge browser
Severity	High
Priority	High

Test Case ID	TC_PAC_053
Description	Verify publicly available content is responsive on mobile devices
Pre-Condition	Access from mobile device (Android/iOS)
Design Steps	1. Open mobile browser 2. Access website 3. Navigate through sections 4. Verify responsive design and usability
Expected Result	Content should be responsive and easily accessible on mobile devices
Severity	High
Priority	High

Test Case ID	TC_PAC_054
Description	Verify publicly available content is responsive on tablet devices
Pre-Condition	Access from tablet device
Design Steps	1. Open tablet browser 2. Access website 3. Navigate sections 4. Verify display and usability
Expected Result	Content should display properly and be usable on tablet devices
Severity	Medium
Priority	Medium

Sub-Module: Security and Performance

Test Case ID	TC_PAC_055
Description	Verify website uses HTTPS secure connection
Pre-Condition	User is accessing the website
Design Steps	1. Enter https://www.ckycindia.in in browser 2. Check URL bar for padlock icon 3. Verify SSL certificate
Expected Result	Website should use HTTPS protocol with valid SSL certificate
Severity	Critical
Priority	Critical

Test Case ID	TC_PAC_056
Description	Verify no sensitive data is exposed in publicly available content
Pre-Condition	User is viewing public content
Design Steps	1. Access all public sections 2. Review displayed content 3. Check for any personal or sensitive information
Expected Result	No sensitive or personal information should be displayed in public sections
Severity	Critical
Priority	Critical

Test Case ID	TC_PAC_057
Description	Verify page load performance for publicly available sections
Pre-Condition	Normal internet connection
Design Steps	1. Clear browser cache 2. Access public sections 3. Measure page load times 4. Test with multiple content items
Expected Result	Pages should load within acceptable time limits (3-5 seconds for initial load)
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_058
Description	Verify publicly available content handles high concurrent users
Pre-Condition	Multiple users access simultaneously
Design Steps	1. Simulate multiple concurrent users 2. All users access FAQs, videos, guides 3. Monitor system performance 4. Verify no degradation
Expected Result	System should handle concurrent users without performance degradation or errors
Severity	High
Priority	High

Sub-Module: Error Handling and Edge Cases

Test Case ID	TC_PAC_059
Description	Verify appropriate error message when video fails to load
Pre-Condition	Network interruption or video source issue
Design Steps	1. Attempt to play a video 2. Simulate network failure or broken video link 3. Observe error message
Expected Result	User-friendly error message should be displayed when video fails to load
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_060
Description	Verify behavior when no FAQs are available
Pre-Condition	No FAQs published in CMS
Design Steps	1. Remove all FAQs from CMS 2. Access FAQs page as end user 3. Observe displayed message
Expected Result	Appropriate message should be displayed indicating no FAQs are currently available
Severity	Low
Priority	Low

Test Case ID	TC_PAC_061
Description	Verify behavior when no videos are available
Pre-Condition	No videos published in CMS
Design Steps	1. Remove all videos from CMS 2. Access videos section as end user 3. Observe displayed message
Expected Result	Appropriate message should be displayed indicating no videos are currently available
Severity	Low
Priority	Low

Test Case ID	TC_PAC_062
Description	Verify broken links are handled gracefully
Pre-Condition	Some content links are broken
Design Steps	1. Create broken links in content 2. Click on broken links 3. Observe error handling
Expected Result	Broken links should display 404 error page with option to return to home or report issue
Severity	Medium
Priority	Medium

Test Case ID	TC_PAC_063
Description	Verify content display when images fail to load
Pre-Condition	Image loading is blocked or failed
Design Steps	1. Block image loading in browser 2. Access public sections 3. Verify content is still readable
Expected Result	Text content should still be readable even if images fail to load; alt text should display
Severity	Low
Priority	Low

Sub-Module: Accessibility and Usability

Test Case ID	TC_PAC_064
Description	Verify content is accessible for users with disabilities (WCAG compliance)
Pre-Condition	User uses screen reader or accessibility tools
Design Steps	1. Use screen reader software 2. Navigate through public sections

Test Case ID	TC_PAC_064
	3. Verify content is readable by screen reader 4. Check keyboard navigation
Expected Result	Content should be accessible via screen readers and keyboard navigation (WCAG 2.0/2.1 compliance)
Severity	High
Priority	Medium

Test Case ID	TC_PAC_065
Description	Verify content language is clear and user-friendly
Pre-Condition	User is reviewing public content
Design Steps	1. Read FAQs, About section, and guides 2. Evaluate language complexity 3. Check for technical jargon 4. Verify explanations are clear
Expected Result	Content should use clear, simple language avoiding unnecessary technical jargon; explanations should be easily understood by general users
Severity	Medium
Priority	Medium

Test Execution Summary Template

Priority	Test Cases	Pass	Fail	Blocked	Not Executed
Critical	17				
High	33				
Medium	14				
Low	1				
Total	65				

Notes for Testers

1. **Test Environment Setup:** Ensure test environment has CMS access for admin-related tests
2. **Test Data:** Use variety of content types (text, images, videos, PDFs) for comprehensive testing
3. **Browser Testing:** Execute cross-browser tests on latest stable versions of Chrome, Firefox, Safari, and Edge
4. **Performance Testing:** Use tools like Google PageSpeed Insights or GTmetrix for performance validation
5. **Accessibility Testing:** Use tools like WAVE, aXe, or screen readers (NVDA, JAWS) for accessibility validation
6. **Security Testing:** Verify HTTPS implementation and absence of sensitive data in public sections
7. **CMS Testing:** Coordinate with administrators for CMS-related test cases
8. **Documentation:** Maintain screenshots and detailed logs for failed test cases
